

Andre Pradhit Rafi Alamsyah

+6285121021364 | andrepradhit11@gmail.com | [LinkedIn](#) | [Portfolio](#)

Computer Science student with experience in web development, UI/UX design, graphic design, and multimedia production. Skilled in building modern, scalable user interfaces using React.js, Next.js, and Tailwind CSS, with a strong focus on design systems, responsiveness, and user-centered design. Also experienced in Quality Assurance, with solid proficiency in manual testing and a growing foundation in automated testing. A reliable collaborator with proven problem-solving abilities and strong end-to-end project execution skills.

Education

Bina Nusantara University

2023 - 2027 (Expected)

IoT | School of Computer Science

SMK Telkom Bandung

2020 - 2023

Multimedia

Project Experience

Graphic Designer & Video Editor — Linestag Indonesia

- Created 35 social media designs and event banners, including materials for Erick Thohir campaign events.
- Edited 50+ promotional short videos for the company's TikTok account to increase brand engagement.
- Developed scripts for TikTok Live product promotions in collaboration with the live-hosting team.
- Coordinated with designers and editors to maintain consistent branding across platforms.

Computer Science Job Prediction Using AI (Frontend & UI Design)

- Designed user interfaces using Figma based on user flow and requirements.
- Developed front-end using HTML, CSS, JavaScript, and Bootstrap.
- Participated in concept development and problem brainstorming sessions.

Full-Stack Web Developer — Rupiah Flow

- Developed a fullstack financial dashboard web application using React, Node.js, and PostgreSQL for structured financial data management
- Built RESTful APIs to handle financial transactions (income & expenses) with full CRUD functionality
- Designed a responsive and modern dashboard UI using Tailwind CSS, focusing on clarity and usability
- Implemented financial data summaries and visualizations to help users track and analyze their financial status

Web Developer — Damianos Production

- Developed a personal portfolio website using Next.js to showcase web development projects and technical skills
- Implemented a responsive and modern UI with optimized layouts for desktop and mobile devices
- Utilized Next.js features such as routing and optimized rendering to improve performance and user experience
- Structured project content to clearly present real-world implementations, tech stacks, and problem-solving approaches

Achievements

Top 5 Hology UI/UX Design Competition — Universitas Brawijaya

- Designed mobile & web E-Learning UI prototypes focused on usability and accessibility.
- Created high-fidelity Figma prototypes addressing major user pain points.

Top 20 — ICPC Programming Competition

- Solved 4 out of 5 algorithmic problems using C programming.
- Competed among top university teams in problem-solving and time-based coding.
