

Andre Pradhit Rafi Alamsyah

+6285121021364 | andrepradhit11@gmail.com | [LinkedIn](#) | [Portfolio](#)

Computer Science student with experience in web development and multimedia production. Skilled in building user interfaces using React and Next.js, with a focus on responsive and user-centered design. Experienced in manual testing and familiar with basic API integration. Strong in problem-solving and execution.

EDUCATION

Bina Nusantara University

Sep 2023 - Mar 2027 (Expected)

IoT | School of Computer Science

WORK EXPERIENCE

Fullstack Developer Intern — Dinas Perhubungan

Feb 2026 - Present

- Developed company profile website and internal system
- Built full-stack features and integrated backend services
- Delivered responsive UI and optimized system performance

Web Developer — Damianos Production

Feb 2026 - Present

- Built responsive Company Profile using Next.js
- Structured scalable and maintainable frontend

Web Maintenance — Dunia Sandang

Okt 2024 - Nov 2024

- Optimized WordPress performance and resolved site issues
- Managed deployment, domain, and subdomain configuration
- Improved site stability and loading speed

Creative Production — Linestag Indonesia

Apr 2022 - Sep 2022

- Produced 80+ visual & video content for campaigns
- Improved engagement through consistent content output

PROJECT EXPERIENCE

Computer Science Job Prediction — Machine Learning Project

Jul 2024 - Dec 2024

- Focused on building and refining machine learning models for job prediction tasks
- Performed data cleaning, preprocessing, and feature engineering to improve model input quality
- Evaluated model performance using basic metrics and iterative tuning
- Worked closely with team to align model output with project objectives

Tech Stack: Python, Machine Learning, pandas, scikit-learn

RupiahFlow — Personal Finance Tracker Web App

Sep 2025 - Jan 2026

- Built full-stack finance tracker with secure auth and email verification
- Developed transaction system with categorization and PDF export reports
- Managed structured financial data using PostgreSQL

Tech Stack: Next.js, React, Node.js, PostgreSQL, Tailwind CSS, REST API

TypePaper — Typing Speed Test Web App

Mar 2026

- Built real-time typing engine with WPM and accuracy calculation
- Optimized input handling for smooth and responsive typing experience
- Tech Stack: Next.js, React, Tailwind CSS, Framer Motion

Nance — Finance Mobile App UI/UX Design

Mar 2026

- Designed end-to-end user flow for personal finance management
- Created wireframes and high-fidelity UI in Figma
- Focused on clear financial insights and intuitive navigation

Tools: Figma, Prototyping, Wireframing

ACHIEVEMENTS & SKILLS

Top 5 Hology UI/UX Design Competition — Brawijaya University

Sep 2024 - Nov 2024

- Designed mobile & web E-Learning UI prototypes focused on usability and accessibility.
- Created high-fidelity Figma prototypes addressing major user pain points.

Hard Skill : ReactJs, NodeJs, NextJs, Tailwind CSS, PostgreSQL and Figma
